OX BUMPER WINCH KIT
DESIGNED FOR SKID STEERS & COMPACT TRACK LOADERS

OX BUMPER WINCH KIT

Skid steer and compact track loader (CTL) operators often need retrieval capability or the ability for self-recovery to make their jobs easier. These abilities, along with added protection for the engine compartment, are available with the new OX bumper winch kit. The OX bumper winch has a large 20,000 lbs. capacity for effective self-recovery and object

retrieval, a modular and open design that allows full access to the engine without compromising protection and can be easily installed on a variety of skid steer and CTL brands and models. And because they are made by dp Winch, a market leader for nearly 50 years, you can rest assured that these winches are rugged and dependable.

FEATURES

- 20,000 lbs (88.9 kN) hydraulically driven planetary winch includes:
 - 74 feet (22.6 m) of 9/16 in (14 mm) wire rope
 - Spring applied cable packer
 - Manual drum kickout for easy free spooling
 - Hawse fairlead plate to reduce rope damage
 - Hoses and hardware for plug-n-play installation
- Complete assembly under 600 lbs
- Simple slide latch with pull off anchor pin provides easy swing away feature
- Robust frame protects the engine compartment while still permitting easy access
- Open frame design is easy to clean and remove debris with heavy duty hinge
- Industrial grade paint standard
- Custom branding available

LAYER	DRUM CAPACITY (ft) 9/16" Dia Rope	LINE PULL (k lbs)	LINE SPEED (fpm)	DRUM CAPACITY (m) 14mm Dia Rope	LINE PULL (kN)	LINE SPEED (mpm)
1	20	20	23	6	88.9	7
2	45	16.6	28	13.7	73.8	8.5
3*	74	14.2	32	22.6	63.2	9.8

Ratings are based on 15 gpm and 2750 PSI (57 lpm 190 bar)

Drum capacities are in accordance with SAE J706.

*Layer does not meet SAE J706.
